Unsafe lifting technique that could cause back problems

Insufficient barricading during paving maintenance works.

Maintenance personnel must ensure that the main electrical panels should be kept locked at all times; in this case, this panel is located at a highly pedestrian circulation area (shopping mall) so the electrocution hazard is obvious).

Fire point during maintenance works accessibility is quite problematic.

Confined space reminder

Never forget, before entering a confined space area

- To get a permit
- To ensure proper ventilation
- To use the Confined Space tripod for access and rescue
